Excellence

The IT industry is faced with constant challenges like unsuccessful projects, missed deadlines and low quality software products. The industry requires solution providers who can deliver relevant solutions grounded in quality and cost effectiveness. The need of the hour is to provide reliable solutions with high value proposition.

To cater to the growing demands of the consulting sector, a new revolution is slowly pushing its way forward, determined to deliver high quality solutions through superior performance and also look beyond business and make a definitive difference to the society at large.

WELCOME TO GTSS

An SRM Tech Company
Handling Experts, Expertise and Excellence

GTSS Inc is an IT consulting, solutions and staffing services company. Our delivery methodology, combining the lean and the Agile methodology, aims at creating innovative solutions that can aid client business growth and prosperity.

By partnering with GTSS, clients get to tap potential from our globally best talent pool where innovation and distinctive ideas and thoughts form the underlying principle. We design business models that are in tune with the changing market demands and trends. Apart from ensuring quality products, cost benefits and high performance, we develop energy efficient technology platforms that meet global carbon reduction targets.

WE ARE :

- ➔ A company that puts innovation and customer commitment way ahead of its other values,
- ➔ A company that is dedicated to collaborative project development,
- ➔ A company that aims to be an ecologically sustainable organization,
- ➔ A global provider of technology, staffing and services that continuously strives for customer delight,
- ➔ A solutions provider that aims to create opportunities that will promote individual growth and development in all possible ways through the Equal Opportunity Employer (EOE) concept.

GTSS APPROACH

The GTSS mission of providing high quality IT and ITES solutions that can largely reduce the cost and complexity of IT lifecycle management is effectively met through our innovative and high quality products and services.

The GTSS approach is built on short iterative cycles that aid in generating required early feedback necessary to re-mould the product. This system works in tandem to meet challenges while building a business solution or delivering a reliable mission critical system.

THE GTSS HISTORY

- ➔ GTSS Inc. is a New Jersey based, IT Consulting, Solutions and Staffing Services Company (part of the **SRM Group**) with global access and innovative delivery capability.
- ➔ **SRM Technologies** is a large brand that is run by the SRM group in India, and has the leading SRM University, the #1 in India, under its banner.
- ➔ SRM Group that owns SRM Technologies is a value based institution, which focuses on providing quality education through the SRM University.

THE GTSS ADVANTAGE - FLEXIBLE SOFTWARE DEVELOPMENT

GTSS is committed to provide value based IT services to our customers. And our approach to achieving this objective can be described in three words- **Technology, Productivity and Cost-effectiveness**. Without compromising on any of these, we encourage our customers to dream big and offer all possible help to actualize it.

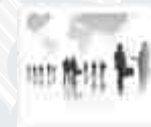

The One-Stop GTSS Advantage Includes:

- ➔ **Proven Agile Process** – Includes distributed practices like personal communication, collaboration, transparency, real time visibility, configuration management, testing strategy and automation to meet business needs and timely deliveries.
- ➔ **End-to-End Solutions Provider** – From birth of an idea through development, support and evolution of software assets, we ensure the relevant products are built through collaborative and creative enterprise software product development and testing solutions.
- ➔ **Optimal Analysis of Requirements** – We conduct constructive market research before going into in-depth domain analysis to find logical solutions to customer problems.
- ➔ **Global Delivery Excellence** – We have an effective 'Delivery Assurance' team in place that anticipates risks and takes all possible measures to mitigate it. This helps us to assure our clients of delivering high quality products on time and within budget.
- ➔ **Quality Beyond Imagination** - Our quality experts ensure that business requirements are completely met by working in tandem with other teams so that the software developed matches the client's requirements perfectly.
- ➔ **Enhanced Business Value** – Our 'Service Oriented Architecture' approach ensures that every GTSS team member works for success of client projects which in turn enhances business value for them.

GTSS SPECTRUM OF GLOBAL SOLUTIONS & SERVICES

IT Heavy Lifting - GTSS expertise includes both application development & product development through iterative and collaborative process.

Bootstrapping - Nothing succeeds like success and GTSS ensures success in all its projects by including in-house developers in the full cycle of software development

Rich Internet Applications - RIA frameworks uses a wide range of controls to enrich user experience, allowing efficient interactions

IT Infrastructure Management - GTSS provides unique and innovative solutions to manage IT infrastructure without compromising on quality and security

Outsourcing – GTSS offers transformational outsourcing, which aids companies to not only realize cost benefits but also improve their current as well as future

IT Staffing - With globally operating teams situated in US, Japan and India, GTSS reaches out to top industrial giants in all these nations to meet their staffing requirements.
